

# API INTEGRATION

## Accelerating Loan Decisions

# BACK YOUR DECISION-MAKING WITH AN AWARD-WINNING ENTERPRISE SOLUTION

For more than 15 years, Veros has been invested in building superior technology platforms to support the thriving real estate risk management industry. We've recently enhanced our API integration and connectivity to Veros' market-leading VeroSELECT™ platform, a SaaS system based on technologies designed to rapidly evolve with the constantly changing requirements of today's markets.

VeroSELECT collateral risk management application accommodates businesses ordering single transactions and is scalable for enterprise clients that are looking for a high-volume solution to streamline and synchronize the ordering of AVMs with PCR and BPO valuation services to save time, money, and strengthen their risk decisions.

## ACCESS THE RIGHT SOLUTION FOR YOU

Complete suite of alternative valuation products in one enterprise system to support your decision.

**AVMs**

AUTOMATED VALUATION MODELS

**PCRs**

PROPERTY CONDITION REPORTS

**BPOs**

BROKER PRICE OPINIONS

## SUPERIOR TECHNOLOGY, SUPERIOR DELIVERY

Make better, faster decisions with technology trusted by mortgage industry pros.

### IMPLEMENTATION

Our VeroSELECT API will save your team valuable time with high volume transactions. No more manual entry.

### SUPPORT

Get unlimited customer support from our experienced team every step of the way.

### RELIABILITY

Our state-of-the-art, redundant platform is built to ensure the system is live and accessible.

## Vero**SELECT** API DELIVERS EFFICIENCY BEYOND A SINGLE TRANSACTION

### FLEXIBLE FOR YOUR NEEDS

- › Supplement AVM orders with a detailed PCR or BPO to help further balance cost, risk, and detail. Order only the solution you want, when you want.
- › The ability to direct each order to the desired AVM vendor or cascade.
- › VeroSELECT has the ability to integrate with other internal or third-party systems via API.

### SCALABILITY FOR YOUR BUSINESS GROWTH

There's no limit on the number of orders submitted via API.

### EFFICIENCY

VeroSELECT can replace manual ordering process with automation for a significant process improvement, and it offers opportunities for greater portfolio risk management efficiency by leveraging its high-volume ordering and delivery system.

### EXPERIENCED INTEGRATION DEVELOPMENT TEAM

Veros' technology team possess years of integration and hands-on project management experience.
